Final Cut Pro X exporter module
API available

– Blackmagic Design: DaVinci Resolve
– SAM
– Apple: first end-to-end workflow directly from Final Cut Pro X´s
  timeline to the easyDCP Publisher ecosystem

DCP software API for IMF integration
With over 1,900 licensees around the world, the post-production
software easyDCP has secured its place on the market for
creation, playback and quality control of Digital Cinema Packages
DCPs and Interoperable Master Packages IMPs. Its rich functionality
is not only available through our popular easyDCP standalone
software, but is also integrated into a number of cutting-edge
post-production tools. Our available, easy to use C++ API enables
existing applications for DCP and IMF creation and playback.
